GERMANY HAS MADE NO PLAN FOR PEACE WITH FRANCE

No Indication at Paris of Any Change

(By Associated Press)
Paris, Jan. 10.—Although the exchange of ratifications of the Versailles Treaty today is the final act that restores before the war relations between Germany and France no arrangements have been made by Germany so far as can be ascertained here to resume peace relations with France. Reports having been circulated for

some time unchallenged to the effect that Kurt Von Lersner, head of the German delegation, would be designated as first German Charge d'Affaires. It had become accepted as a fact, Baron Von Lersner however, told the Associated Press today that he had not been named for the post and was in utter ignorance of the intentions of his government.

LEAGUE OF NATIONS EFFECTIVE JAN. 16

President Has Been Requested to Call the Meeting

(By Associated Press)
Paris, Jan. 10.—The putting of the League of Nations into being which will be one of the immediate consequences of the exchange of ratifications of the Treaty of Versailles will occur in Paris at 10.00 in the morning of Friday, January 16th. The Supreme Council decided today. Ambassador Wallace called this decision of the

council to President Wilson so that the President might issue the formal notice of the meeting of the council of the League of Nations to be held on the date named. The first meeting of the Council will be called to order and presided over by Leon Bourgeois, the representative of France in the Council. He will deliver a brief address. Earl Curzon the British foreign secretary, who will represent Great Britain at the meeting also will speak.

Washington, Jan. 10.—President Wilson is expected to sign the call for the first meeting of the League of Nations Council immediately after receiving notice from Ambassador Wallace. Continued on page 2.

REPORT GERMAN GOVERNMENT OVERTHROWN

Messages From Berlin Make No Reference to Same

(By Associated Press)
Brussels, Jan. 10.—Travelers from Germany reaching here today brought unconfirmed reports that the German government had been overthrown. It was reported that the socialists were masters of the situation and that a general strike had been declared throughout the territory not under Allied occupation.

London, Jan. 10.—In connection with unconfirmed reports from Brussels of the German government's overthrow messages from Berlin via Copenhagen received this morning did not indicate that anything of an extraordinary nature had been foreseen in Germany up to late last evening.

VOLCANO AT SAN MIGUEL STILL ACTIVE

(By Associated Press)
Mexico City, Jan. 10.—Flames are still being emitted by the new volcano at San Miguel in the western part of the State of Vera Cruz according to notices received here last night. It is stated volcanic dust has floated about 20 miles east of the new crater. Every village in its vicinity has been destroyed while lava and floods of incandescent water from sources opened by the recent earthquakes are flooding the districts near the crater.

THOUSANDS DIE IN BLIZZARD

(By Associated Press)
Reval, Jan. 10.—Thousands were frozen to death in a blizzard which swept across Estonia on New Year's Day. Reports received here state 300 bodies of refugees were found in a forest between this city and Narva and American Red Cross workers say there were many instances of babies being frozen to death at their mothers' breasts.

(By Associated Press)
Paris, Jan. 10.—The Treaty of Versailles ending peace between Germany and the warring allied powers was put into effect at 4.16 o'clock this afternoon by the exchange of ratifications. The entire ceremony which took place in the Chancery at the French foreign ministry was completed by 1.14 o'clock. Previously Baron Kurt von Lersner head of the German mission signed the protocol of November 1st providing for reparations for the sinking of the German ships at Scapa Flow and to insure the carrying out of the armistice terms. The signing of this document occurred in the office of the minister of foreign affairs. Peaceful relations between Germany and the greater part of the nations engaged in the great war with her are established by the nation taken at Paris today. The peace treaty now goes into effect on between Germany and those powers that have finally ratified it, Great Britain, France, Italy, Japan, Belgium, Bolivia, Brazil, Guatemala, Peru, Poland, Czechoslovakia, Uruguay, Great Britain was the last of the great powers represented in the supreme council of the peace conference to take such action being followed in succession by France, Italy and Japan. The United States alone of the big five has not ratified the treaty. The all important ratification by Germany was given on July 2, 1919, the day following which President Wilson presented the treaty to the U. S. senate. The making of the peace which now becomes effective was given shortly after the conclusion of the armistice on November 11, 1918, which ended the great war. The treaty of Versailles as it has become known was signed in the historic Versailles Palace on June 28, 1919.

Paris, Jan. 10.—Baron von Lersner and Herr von Shinson, the other German representative, were among the last of those to arrive at the Foreign Ministry for the day's ceremonies. They passed into the Foreign Office shortly after Premier Clemenceau, who was given an ovation as usual as he stepped out of his car. The delegates assembled in the private office of the Minister of Foreign Affairs where at a secret session the protocol was signed at 4.09 o'clock. Led by Premier Clemenceau the delegation then filed into the famous Chancery Room, where were held the plenary sessions of the peace conference that fixed the terms of the treaty. Baron von Lersner and Herr von Shinson were the last to enter the room and the first to sign the minutes recording the exchange of ratifications.

\$25,425 IN TIPS IN YEAR

(By Associated Press)
Chicago, Jan. 10.—Miss Hannah Stiles, for two years a check girl in restaurants here, in a suit filed in the superior court today sought to obtain \$25,425 from the "Chicago Tipping Trust." She alleged she received that amount in tips in two years and was compelled to give it to the trust. Three men were named defendants. "These men have secured the checking concessions in most hotels and cafes," said Miss Stiles. "They pay girls \$5 to \$15 a week and compel them to drop tips in a small iron bank which is camouflaged with paper." "I was a checker for two years and turned in more than \$25,000 in that time."

MILLIONS ADVANCED FOR AUSTRIAN RELIEF

(By Associated Press)
Washington, Jan. 10.—Authority to advance \$150,000,000 for food relief in Austria, Poland and Armenia was asked of congress today by Secretary Chase. Mr. Chase said this money would relieve the situation until next fall. Assistance by the U. S. "is imperatively required," he said "to alleviate desperate situation" affecting millions of people.

Wrongful Placing of Blame.

By statements made by Senator Harding of Ohio in an address in New York a few nights ago one might be led to infer that the big business men are chiefly to blame for the anarchistic agitations that are disturbing the country. He is reported to have said: "The worst disloyalists and most effective conspirators wear the garb of full-fledged American citizenship. The ignorant foreigner is more a victim than a conspirator. Agitator and revolutionist reached his sympathies while the capitalists of American industry were counting dividends without concern for the human element in their making. In most instances the Americans who invited and enlisted foreign activities to swell the man power of industry have neglected to teach the American language, failed to utter American sympathies, forgotten to extend American fellowship and omitted the revelation of the loftier ideals of American citizenship. The grind of the workshop alone is poor culture for that citizenship which makes the ideal republic."

This indictment is not sustained by the history of business and labor in this country. There may have been instances in which advantage has been taken of the ignorance of foreigners to exploit their labor; but wherever this has been done it has been the exception and not the rule, as is proved by the rapidity with which industrious foreigners have made and are still making their way upward in this land of opportunity. The way they forge to the front is astonishing. In every community are leading business men who are immigrants or the sons of immigrants; many such are in public office and the ranks of labor are filled with so-called "foreigners" who under the advantages they enjoy here are bettering their condition every day and proving themselves sane and desirable citizens. It is true that among the foreign population there are dangerous elements which are making much trouble at the present time, and it is also true that there are native-born and naturalized citizens in the ranks of those who would overturn our institutions and throw the country into chaos. But these trouble makers are not composed of American business men, or of immigrants who came here to better their condition in life by hard and steady work and the improvement of such opportunities as await them and their children under a government which they recognize as the freest and best on the face of the globe.

The men who are making the trouble are trouble makers by nature and instinct, and there is no warrant for attributing their actions to neglect on the part of the American government or the American people. The foreigners who have come to our shores have been given a fair chance. They have not been coddled, they should not be coddled, and they do not want to be coddled. The great majority of them are willing to work, and ask for nothing but the opportunity to make their way in life through honest industry.

One thing which thinking people should scrupulously guard against at this time is prejudice against all foreigners because of the misdeeds of a few. Those who are preaching and practicing anarchy should and will be properly dealt with, but there should be no wholesale condemnation of those who came from foreign shores for legitimate purposes, nor should honorable business men be charged with "counting dividends without concern for the human element in their making." In viciousness such talk is but little removed from the inflammatory rantings of the dangerous radicals to whom the government is now properly and wisely giving its attention.

There is plenty of work for Congress to do, and yet it will be a wonder if a lot of time isn't fooled away, as usual.

A campaign has been started in England for nationalizing the liquor business. And here prohibition has been nationalized, much to the disgust of certain elements of the population.

The women are making it plain that they are not to be satisfied merely with voting. They are already calling for equal representation on the national committees and a fair representation in the national conventions. And let it not be forgotten that there is already one woman in the field as a candidate for the presidency.

A stubborn fight against deportation is promised. It is announced that the radicals are fortified by strong legal talent and that they have a substantial "slush fund." And, of course, so long as the latter holds out there will be no lack of "legal talent."

Sir George Paish, British financial expert, who is now in this country, thinks a loan of about \$35,000,000,000 will be necessary to "stabilize international credits." Whew!

The recent burning of an insane asylum in Connecticut, by which nine inmates lost their lives, has been investigated and the verdict is that "no one was to blame." But even that is better than pronouncing it a "providence of God."

The weather has been favorable to the ice men of late. And when the mercury climbs to 90 in the shade it will be just as favorable to them. They should be a happy lot.

COMPLIMENTS
CHAMBER OF
COMMERCE

Gives Organization Credit for Valuable Work.

Treasurer's Office, 77 Franklin St., Boston, Mass.

December 2, 1919.

F. A. Belden, Esq., President, Chamber of Commerce, Portsmouth, N. H.

Dear Mr. Belden:

The Atlantic Corporation and its officers have received so many courtesies at the hands of the Chamber of Commerce and the business men of the City of Portsmouth, that it is my pleasure as well as my duty to express to you my appreciation of the treatment which our Corporation has received in Portsmouth.

It gives me an added pleasure to tell you that we have concluded a new contract with the government under which we are to permanently continue in your city, whether always as a shipyard or not of course we cannot now say, but as an industry we feel sure that we shall be located with you for many years to come.

We sincerely trust that the pleasant relations which we have sustained in your city in the past two years will continue and that any future relations will be about the same happy lines which have characterized our past and do characterize our present dealings.

The arrangements which we have made with the government require the most careful economy on our part and the most efficient operation. We believe our organization will produce these necessary factors to success, but we bespeak your continued co-operation. We believe our organization will produce these necessary factors to success, but we bespeak your continued co-operation.

We have an excellent organization at the yard. Our men are loyal, helpful and enthusiastic, and we believe that they will share with us the pleasure in knowing that we are to be permanently with you and will give evidence of their happiness at the firmness which our relations are now assuming and show that appreciation by renewed efforts. We have appreciated what our men have done for us in the past and we have no doubt that we shall have occasion to even more appreciate them in the future.

We have had a great deal of help in bringing about an adjustment of our matters from our good friend, Senator George H. Moses, whose interest in the State of New Hampshire has led him to do everything in his power for us compatible with the public interest and his duties toward the state. Senator Moses has shown a practical interest in keeping this industry in New Hampshire which cannot be too highly commended. While not all in our organization are of his political party, that has been lost sight of in the broad-minded business way in which he has viewed the whole situation from the standpoint of doing something for the state of New Hampshire. I cannot but feel that the state of New Hampshire is to be congratulated upon being represented by such an earnest, able business man as Senator Moses.

I thought you would be glad to have all these facts brought to your attention, and with the very kindest regards to your good self and to your associates in the Chamber of Commerce and the business men of Portsmouth, you must believe me to be, my dear Mr. Belden,

Very sincerely yours,
(Signed) ARTHUR H. SHARP,
President, The Atlantic Corporation.

Mr. Bryan's only chance of election would appear to be on a normal issue. As a business administrator he would hardly be preferred to anybody.

Is California Astounded?

(From the San Francisco Chronicle, 10p)
We in this State, and we believe we may say in the West, have a candidate whom we earnestly hope and confidently expect to be the nominee of the convention for the chief office. We shall do all that we honorably may to secure that result, but we are sure that we can pledge California and the West to the nominees of the convention who over they may be.

Reasons for High Prices

(From the Shoe and Leather Reporter)
Of all the arguments advanced the most absurd is that business men are in some manner organized to maintain the present high level of values. Singularly enough it is manufacturers and merchants who are doing the most that can be done to prevent high prices. Every one of them is a buyer as much as he is a seller. Tanners want cheap hides, shoe manufacturers insist upon lower cost leather, and shoe retailers would like to buy shoes for less money. This is a situation common to all other industries. In a gen-

eral way it is true that extra profits are made on a rapidly rising market and severe losses are entailed on a declining market, but the advantage or disadvantage is only temporary. The time soon comes when the seller is compelled to buy on the new market which checks his profit or stops his loss as the case may be.

It is unfortunate that so little is being done to give the public the real, although unpalatable, facts regarding the price situation. After the Chicago fire the citizens did not expect to live in their customary manner pending the rebuilding of the city and the resumption of the normal activities of life. During the great war practically the whole world was adrift, billions of dollars worth of property and commodities were destroyed, millions of men were shifted from production to intensified consumption, but many persons appear to think that this economic cataclysm ended with the signing of the armistice.

Selecting a Governor

(From the New Orleans Times-Picayune)

It is the quality of manhood that counts, these days, in a chief executive of a commonwealth.

For our own problems there should be sought a man bold in decisions, fearless in action, contemplations of threats, intolerant of evasion, possessed of the willingness to serve, ready to sacrifice his ease for a cause—a man who has never been a time-server, whose words speak his thoughts, and whose actions speak for themselves.

"If times are such that a 'passable man' will not do.

Unrest rocks the world and stirs this nation. Men at the helm of things, above all else, must possess the divine attributes of utter moral fearlessness and of power to impress other men with complete trust in their motives and their high intentions.

The trust of the mass of Americans in their institutions and in their public officials must be restored, and in as way can that trust be restored and maintained so well as by electing to leadership men to whom trust instinctively is extended. Trust is not maintained by retreating "all is well"—when those who suffer thus injustice and inefficiency know that all is not well.

Trust, like faith, follows upon the heels of work that inspires those sentiments.

Public Dances Should Be Clean

Editor:
I believe that the brutal dances or mode of dancing the modern dances practiced here and elsewhere should be absolutely suppressed. Indecent dances brought from the East and from Europe as well should not be permitted in any public dance hall if our girls and young women are to retain a particle of self-respect and good reputation.

\$5,250,000,000 U. S. 1920 NEED

Chicago, Jan. 10.—The estimated requirements of the United States government, not including anything for the railroad administration for the next fiscal year, were placed at \$5,250,000,000 by Congressman James W. Good of Iowa chairman of the House committee on appropriations. He made the statement last night before the Illinois Manufacturers' Association in an address advocating a budget system.

This sum, the speaker said, represented a per capita tax of \$17 and to collect even a much smaller sum than the hand of the tax gatherer would fall heavily upon many of the people. He charged many government departments with extravagance and deplored the lack of "real business acumen" in others.

POLICE BARRACKS
IN IRELAND
ATTACKED

(By Associated Press)

Dublin, Jan. 10.—Police barracks six miles from the village of Tuam in County Galway were attacked Thursday evening by a large party of men according to reports reaching this city. The attacking party said to number about 100 men besieged the barracks firing repeated rifle volleys which rattled the doors and smashed the windows. During the fight two or three bombs were thrown, one wall being demolished and one police sergeant slightly wounded. The occupants of the barracks returned the fire of the night assailants. Four constables who were patrolling the neighborhood heard the explosion of the bombs and hastened to the scene. When they arrived they attacked the besiegers so vigorously that they abandoned the fight. Two mail robberies, one near Limerick and the other near Mullingar were reported on Friday. About 60 lbs. sterling in bank to the recipients of old age pensions were taken.

ALUMNI FURNISH RELAY
SUPPORT AT DURHAM

Durham, Jan. 9.—That the alumni of New Hampshire college are solidly supporting every activity of the college was again demonstrated this week when the announcement was made that the alumni association had guaranteed \$100 for the support of the relay team to run in the N. There has been some doubt as to the possibility of having an indoor track meet at the state college this year on account of the fact that there is no board track upon which the runners can train. The financial condition of the institution is such that it has been thought almost impossible to build a track this year.

LIFE IN ATHENS
SUBJECT OF
ABLE TALK

"Life in the Greek Capital" was the subject of an interesting talk given Friday afternoon before the Woman's City Club by Mrs. Dinmore, wife of W. B. Dinmore, professor of Archaeology of the American College at Athens and was listened to with interest and pleasure by a good sized audience.

Prof. Dinmore was also assistant military attaché of the American embassy and the couple had lived there for the past nine years and it was the birthplace of their young daughter. Mrs. Dinmore appeared in typical Greek costume and depicted the people and their manner of living, giving many of her experiences when there, which was also during the early part of the war. With the aid of a radiophone she showed pictures of Athens, including many of the ruins and the new buildings.

Previous to the lecture tea was served in general charge of Mrs. Horace Barker, chairman of the hospitality committee of the Woman's City Club. Next Friday afternoon a musicale is to be given by Miss Lee T. Gray.

CANADIAN R. R.
TRAIN DERAILED

(By Associated Press)

MacKay, N. S., Jan. 10.—The Canadian National R. R. train running from St. John's to Halifax was derailed just south of the station here this morning. All six cars left the track but no one was injured. Spreading rails was believed to have caused the accident. The passengers were taken to Halifax in a special train.

LEAGUE OF NATIONS
EFFECTIVE JAN. 16

(Continued From Page One)

The first session has been fixed for next Friday. The United States, however, will not be represented at the meeting as the treaty has not been ratified by the Senate. Provision for the President to issue the call for the initial meeting of the Council is made in the peace treaty and officials explained that in signing the call Mr. Wilson would not be acting in his capacity as President of the United States. The coming into force of the treaty through exchange of ratifications today between Great Britain, France, Italy and Germany will not affect the United States, officials said. "While technically the state of war between this country and Germany still exists under some months ago and is steadily increasing, particularly the export movement from the United States. The United States, however, will not be represented on any of the various commissions set up by the treaty for carrying out its terms nor can this country send consular agents into Germany until the state of war has ended.

CITY WOMAN'S CLUB

The opening meeting of the City Woman's club occurred at the Woman's Building, Middle street, Friday afternoon at 3:30. Although the weather was unfavorable a large number were present and many new members joined the club during the afternoon.

The activities committee had arranged for an informal talk by Mrs. W. B. Dinmore on "Life in the Greek Capital." Mrs. Dinmore is the wife of Professor W. B. Dinmore, and for many years was connected with the American college in the archaeological department. Mrs. Dinmore is an able and interesting speaker and in an especially charming manner she told her story, touching upon ancient and modern Athens, and telling many of her own personal experiences during the blockade of 1917. Her talk was interspersed with pictures of the famous city, and before concluding she exhibited Grecian costumes worn by the native young women on gala days.

Before the lecture and afterward, tea was served, Miss Annie M. Varrell presiding.

The club will have an informal afternoon Friday each week and arrangements will be made for occasional evening affairs.

N. H. STATE SCHOOL
TO UNDERGO PROBES

Manchester, N. H., Jan. 10.—What is considered a forerunner of an investigation of conditions at the State industrial school here, followed a meeting of the trustees of the institution. Gov. Bartlett, Councilor John J. Welpley and the trustees made a preliminary study of conditions under the guidance of visitors. Appointment of a superintendent and investigation of flagging charges made several weeks ago are expected to come before a meeting of the trustees called for next Wednesday.

A good many people from the surrounding towns have driven into town today, the first opportunity for winter sleighing.

MUTINY AMONG THE CREW OF THE WASAGYA

Two Brought Back in Irons From Bermuda; Ship Also Meets With Accident.

The oil steamer Wasagya, built at the Shattuck yard, Newington, is still in Bermuda harbor on her way to the Azores and part of her crew in prison at New York.

This ship, controlled by the Standard Oil Company, left New York several weeks ago with a cargo of oil and has had a variety of trouble including mutiny by the crew.

While between New York and Bermuda the men started trouble and it is said there is a lot of the ship's equipment in the sea. To add to this, the steam of the ship's rudder was put out of commission about 300 miles from Bermuda and she tossed around in the sea for several hours before assistance came from the wireless call.

The ship was finally anchored off St. Georges where she has been ever since. Two of the mutineers were sent back to New York in irons and locked up to await action of the federal authorities.

A new captain and part of a crew were sent to the ship from New York.

The ship, outside the accident to the rudder stem, was working in fine shape. However, she may not reach the Azores for many weeks.

Bernard Libbey of this city left New York with the Wasagya as first officer but was obliged to return to New York with the prisoners from the ship and report the situation to the Standard Oil Company.

NEWINGTON

Newington, N. H., Jan. 10.—Before fully entering the year of 1920, we will take a look backward and give a brief review of 1919. There were five births as follows: May Paul Collins, Dorothy Mathews Watson, George Alfred Garland, Jr., Marion Louise Pickering and Ruby Jackson. Seven deaths: Mrs. Ida Cole, Marguerite deLachement, Lydia Farber, Caroline Coleman, William Brown, Albert Pickering and Hannah Pickering. The remains of several persons who formerly were residents were brought here for burial and laid to rest in their respective family lots. There were six marriages, where one or more of the contracting parties was one of our young men or women. Our boys continued to return from the army and navy until the entire number were citizens once more. Phineas Coleman who was one of the first of the boys to go, was about the last to return home. The quota required of us during the remaining drives, Liberty Loans, etc., was met and a small surplussage usual over, until they ceased. The large working force at the Shattuck shipyard was slowly reduced until fall when only those on guard duty and those engaged in shipping off the lumber were left. Seven ships were finished and launched; two still remain on the ways and it is now reported that they will be finished. In April, news was received that one of the ships, Roy Beattie, which had been built at the Shattuck ship yard was built at sea. Several ships not in commission were launched at the yard by the Emergency Fleet commissioners. Early in the fall the Chemical Dye Staff Co., negotiated for the Shattuck ship yard property and some adjoining property and the sale of the same soon followed. The Chemical Company is increasing its force of men and the work will be rushed as much as possible so that the company can move its business here in the spring or early summer. The State Pomona Grange held its meeting in our town hall in October. The great event of the year was the church wedding which was held Sept. 20, the first for about 50 years. In our review of the year we may have omitted some things worthy of note, but will close by adding to the list the names of two of our young men who enlisted in the navy, Robert Drowne and Elbridge Knox.

The annual church meeting was held on Monday afternoon at the parsonage. The following officers were elected for the following year: Clerk, Jackson Hoyt; moderator, Rev. Mr. Gould; treasurer, William Farber; finance committee, May Frink, Mrs. Knox and Mrs. Anna Pickering; church committee, Mrs. Farber, Ruby Frink, Mrs. Packard and Mrs. Gould; music committee, Mrs. Swasey and Abbie Frink; auditors, Mary Pickering, Mrs. Forbes. The work of the past year has been good and we trust that the coming year will bring renewed prosperity.

The teachers and pupils returned to their schools on Monday after a two weeks' vacation.

Miss Grace Pickering has returned to her duties as nurse in Boston, Mass. The farmers have harvested their winter crop of ice and nearly all the ice houses are filled.

Mrs. Beth Hand is with her sister Mrs. Lafavour of Winchester for a short time.

Miss Hope Trefethen of Rowley, Mass., is passing a few weeks with her sister, Mrs. Josephine Hoyt.

Allen Packard who has been sick for a few weeks is now about and will return to his duties at the navy yard next week.

Mrs. Florence How and son John, have returned to their home in Haverhill, Mass.

We have a new mail carrier Mr. Lewis Smith of Portsmouth.

Mr. E. Moody is passing the winter with his daughter, Mrs. Charles Coleman.

CREEDON CASE IN SUPREME COURT OF YORK COUNTY

Plaintiffs Claim No Warning Signs on Kittery Bridge on Day of Accident.

The Creedon case against the town of Kittery opened in the York county supreme judicial court on Friday and day he concluded today. In the opening Attorney John L. Mitchell for the plaintiffs read the writ to the jury and then outlined the circumstances of the accident for the plaintiff. Two machines fully occupied started out from Thompson Beach at about 2 o'clock for a ride on the afternoon of July 11, 1917. In the leading car were Father Scott and a number of friends. In the second car were Father Creedon, the plaintiff at the wheel, Father Griffin, Edward Crose, Mary Crose, his daughter, and Father Creedon's sister. The occupants of the machines were out for a ride and Father Scott being ahead, chose to travel towards York City, leaving Portsmouth he took the Post road to York. When Spruce creek and the creek bridge were approached it was seen that it was under repair. The only possible portion was said to be on the left hand side, which is the upstream side. There was a temporary railing on the right, where new planking was being put down. The traveling on the left was none too good as much of the top planking had been removed. The old planking had been laid crosswise, but the new planking was being laid lengthwise to the bridge. Both cars had been proceeding all along the way at a reasonable rate of speed and the drivers cautiously crossed the bridge.

The party went for some distance and then turned back taking the reverse route. At about the time it was decided to turn back Miss Mary Harsley who had been in the Scott machine, changed places with Father Creedon's sister in the other machine. The writ then describes the accident which was printed in The Herald of the last trial. Rev. Joseph P. Creedon, the plaintiff, stated on the stand that he was going along slowly when approaching the bridge. He testified on and along testimony is made by Counsel Mitchell. Inspector Sturtevant of the Kittery navy yard asserted on the stand that he did not state to Attorney A. B. Cole of the defense that the two machines were going at a rate of thirty-five miles per hour when he met them. In the afternoon Mr. Jenkins of York, Harry W. Beckett, Leon Haskett, Geo. Young, Fred W. Crowell and William F. Bray, all of York, were witnesses for the plaintiff.

KILONIS AND SIMKOS WILL BE GOOD MATCH

The wrestling match between John Kilonis and Simkos the Polish strong man at Freeman's hall on Monday evening, promises to be a good match. The work of Kilonis is to well known here to need repeating that he is the best of his weight in the country. Simkos is a new man around this section and he comes with a good reputation. He is known as a strong man with a wonderful development and a good wrestler. He is heavier than Kilonis but that does not mean anything to the Greek who is not afraid of any man no matter what his weight.

ROCHESTER AND DOVER EACH MAKE EIGHT POINTS IN GAME

Dover, Jan. 9.—The Dover American Legion team and the Rochester City Legion battled this evening to a tie, each side being able to make only 8 points in the first of the series of five games.

Fully 500 people gathered at the arena to witness the contest, two special cars bringing the contingent from Rochester who were supplied with the home and other musical instruments. At the end of the first period—the score was 8 to 2 in favor of the visitors while at the end of the second session, each had six points.

The feature of the game was the playing of C. Reardon and Murphy for the locals and Gallagher and Flynn for the visitors.

HIGH SCHOOL DEFEATS ST JOSEPH HIGH

The High School basketball team defeated the St. Joseph's High of Manchester at the Y. M. C. A. gymnasium on Friday afternoon by a score of 32 to 25. It was a return game, the first game being played at Manchester when the St. Joseph team won 20 to 17.

The locals played a fast game Friday afternoon and quickly took the lead from the Manchester team scoring twenty-two points in the first half to the visitors 16. They maintained their lead in the second half scoring ten more points to the visitors 6.

Averill played a very fast game scoring six baskets and he got good support from Varrell and P. Badger. For the visitors, Keane and Murphy played the star game, the former scoring six baskets while Murphy scored five baskets from the floor.

The game was fast and well played with fouls, few and far between. The local floor may have hindered the visitors but no more than their ball did the locals on their visit to Manchester.

There was a good number of the high school pupils present at the game. The High school will play the Dartmouth Academy team at the Y. M. C. A. on Wednesday afternoon Jan. 11, at three o'clock in the afternoon.

BOXING NOTES

(By Associated Press)

New York, Jan. 10.—American boxing enthusiasts are awaiting with interest the outcome of the meeting of the International Boxing Union to be held in Paris on February 5. Unless there is an eleventh hour shift in the sentiment, the U. S. will not be represented formally, if at all. As a consequence it is doubtful if any of the amateur organizations of this country or the professional promoters will feel obligated to observe regulations or suggestions which may arise from such conference.

An composed at the present time the Union consists of French, English, Swiss and Belgian boxing organizations or individuals who, under the initiative of the French have been working upon an international association plan since 1916 when the French boxing federation attempted to convene an international congress to discuss the many crude angles of the glove game. Neither the English nor American authorities showed any enthusiasm.

In 1913 another meeting was held and the following year the I. B. U. was officially organized according to the French, with the following countries represented, either officially or

CATARH DOES HARM

Whether It is of the Nose, Throat, or Other Organs, Get Rid of It.

Catarh of the nose or throat when it becomes chronic weakens the delicate lung tissues, deranges the digestive organs, and may lead to consumption. It impairs the taste, smell and hearing, and affects the voice. It is a constitutional disease and requires a constitutional remedy.

Take Hood's Sarsaparilla, which by purifying the blood removes the cause of the disease and gives permanent relief. This alternative and tonic medicine has proved entirely satisfactory to thousands of families in three generations.

If there is biliousness or constipation, take Hood's Pills—they are a thorough cathartic, a gentle laxative.

Informally, France, England, United States, Belgium, Switzerland, Argentina, Republic and the Australian Boxing commission. During the war there was no further activity on the part of the International Boxing Union but with the signing of the armistice the meeting in Paris next month was called to consider new rules, weight classification and other details necessary to the reinduction and improvement of the ring sport. In the meantime, however, the American army, navy and civilian, board of boxing control had been formed in this country and a new code prepared to supersede the Marquis of Queensbury rules.

This code was sent abroad for submission and suggestions to the English and French boxing authorities. It is the hope of those who spent long weeks upon the revision of the rules that the new regulations will prove acceptable as the basis of a universal boxing code. There are so many radical differences between the English, French, and American systems of the awarding of boxing decisions, however, that many are skeptical regarding the outcome.

A standardized set of boxing rules for international use is badly needed at this time when boxing is experiencing a great revival in many parts of the world. An international association would advance the sport but it is the consensus of opinion among the American authorities that the International Boxing Union governing laws will have to be radically changed before the U. S. organizations can accept membership.

Although two-thirds of the recognized world championships are held by American boxers the country would have but one vote in such a union and rules and regulations, incident to the interests of boxing here, might easily be passed over the protest of American delegates. Entire action on the invitation of the I. B. U. authorities for co-operation on the part of the United States will depend to a great extent upon the reception recorded the revised rules which were recently sent abroad. If they are accepted, in a general way, as the basis for international play contests the way will be paved for further participation of this country in international boxing reforms.

Should Jack Dempsey and Georges Carpentier meet in the ring during the coming year as appears most probable, it will be the first time since March 22, 1918, that a foreign heavyweight has been a series contender for the world's championship in this class. On that date Jim Jeffries knocked out Peter Jackson in three rounds and while the famous Australian negro was but a shell of his former self, he still carried the European heavyweight honors. The victory gave Jeffries the right to the world's heavyweight title beyond all dispute. Jackson was the first Australian heavyweight champion. Later he added the title of English champion by knocking out Frank Slavin in London and when he entered the ring against Jeffries he was the holder of European honors while Jeffries held undisputed title to the American championship. Jeffries honors in turn passed on to Jack Johnson, Jess Willard and on July 4, 1914 to Jack Dempsey.

Carpentier by his two defeats of Bombardier Wells and his latest victory over Joe Beckert holds the title of European champion. Should he face Dempsey during the next few months the French pugilist who began his career as a featherweight, will be the first foreign heavyweight in several decades to enter the arena against an American with anything like a fair chance of winning the world's heavyweight championship.

COMPLETE PLANS FOR BOARD TRACK AT N. H. COLLEGE

Dartmouth, Jan. 9.—The student body of the New Hampshire college was greatly enthused here tonight when a representative of a student committee made the announcement that plans were complete for the building of the long-time needed board track. The student body is to be asked to contribute to the fund for the purchase of lumber and to assist next week in the construction of the track which is to be built in sections under the direction of the college workshop.

This announcement means that the college will be represented in the I. A. A. meet at Boston Feb. 7 and that in all probability other meets will soon be scheduled.

"The committee of the two major leagues appointed a year ago to select a man for the chairmanship, are expected to present their recommendation at the joint session," he said.

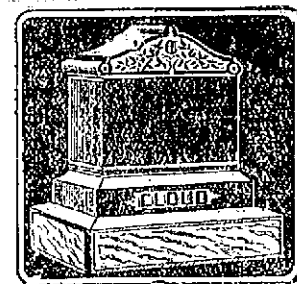

PORTSMOUTH NAVY YARD BASKETBALL TEAM TO PLAY NEWBURYPORT HERE

On Wednesday evening, January 14, at 8 o'clock a basketball game and dance will be held by the employees of the Portsmouth navy yard at Freeman's hall. A good game is assured as the fast Newburyport five is to play against the yard team in the latter part of December the Portsmouth yard team journeyed to Newburyport and were defeated by the Newburyport outfit by two baskets. However, the yard five was handicapped in that two of its regular players were missing from the lineup.

TWO DARTMOUTH STARS ARE INELIGIBLE

Hanover, N. H., Jan. 9.—The Dartmouth college Athletic Council today declared ineligible for athletic competition Joseph T. (Cuddy) Murphy and Guy E. Cogswell, two of the most prominent athletes in college.

The action was due to participation by the men in a professional football game at Cleveland November 23. Murphy played tackle on the Dartmouth eleven, and Cogswell end. Both are also track men and Murphy was the Green's first string pitcher in baseball.

North Congregational Church

SUNDAY, 7.30 P. M.

Speaker—THOMAS MOTT OSBORNE

Subject—"Two and One Half Years in the Naval Prison"

When Mr. Osborne first came here he spoke, in the North Church, on Priggen, and the system he came to put into operation. After this period of time he speaks again, explaining further the working of the system, and incidentally referring to criticisms of the work.

NORUMBEGA LAUNCHED AT FOUR O'CLOCK

MONTHLY MEETING HELD BY Y. M. C. A. AUXILIARY

The Women's Auxiliary of the Y. M. C. A. held its monthly business meeting on Thursday afternoon at the Association building. The usual routine business was transacted and it was voted to serve a supper on the evening of January 29 to the men who lodge in the building. It was also voted to have a rummage sale in April.

The Bible club suppers are much appreciated by the members and are marked by sociability. The Methodist parish is serving the supper in January; the North church will serve in February and the Middle street Baptist church in March.

RELIGIOUS EDUCATION OF CHILDREN WAS THEME OF ABLE TALK

Rev. Hugh Orr was the speaker Friday afternoon at the monthly meeting.

ing of the Unitarian Christian Alliance in the chapel on Court street. He gave an able talk on "The Religious Education of Children," telling of the graded system adopted in many of the Unitarian Sunday schools. Following his talk a social hour was enjoyed and tea served by Mrs. Lee T. Gray and Mrs. J. Orin Walker.

HOLD SUNDAY SERVICE ON ICE

Montclair, N. J., Jan. 10.—The lure of ice skating has been so strong to the members of the Young People's Society of the Congregational church that the church will hold its weekly meeting next Sunday evening on the ice. The pastor of the church announced yesterday that he will don skates and lead the group around the lake. The meeting will conclude with hymn singing and the serving of coffee and sandwiches.

The census enumerators are now engaged in recording the population of this city. Portsmouth has grown considerably since the last census was taken in 1910, and the result is of great interest to every resident. The last census gave us a population of 11,203. What is it today? Try your luck at guessing. The HERALD will award a ten dollar gold piece to the one coming the nearest in estimating the increased population. Start today. Fill out the printed blank and send in your names. The HERALD will later publish the list of names as they come in. Here is an opportunity for some pocket money. Each contestant restricted to one guess.

WINTER OVERCOATS

MARKED DOWN

It seems to be an assured fact that next winter's prices for overcoats will be higher than those of this season. In the face of this fact we have marked down practically all of ours from \$5.50 to \$7.50 on each garment. Added to the probable advance on the same quality coats next season you will save from \$10.00 to \$14.00 if you buy now.
